# **FOREWORD**

At the Twelfth Annual Session of the National Convention in Philadelphia, February, 1910, Enactment 1204 was passed providing for an Address Book to be issue blennially by the National Recorder. In obedience to this command, the 1911 Address Book has been prepared and is presented with no claim to pretentious appearance, but in the belief that a reasonable degree of reliable accuracy has been attained. The test of daily use will soon decide whether or not the belief is justified.

No effort has been spared in gathering data. Every Brother who could be reached by mail has been communicated with and information secured at first hand from him. Where the data are questionable, indicated thus (?), it is because they were not received directly from the Brothers themselves or other unquestionable source. In most of these cases letters were mailed to the addresses shown two or three times making requests for information, and no reply was received. Neither were the letters returned by the Post Office, indicating that probably the Brothers addressed were reached and that for some reason the replies were not sent or went astray.

If any errors are noted (it is hardly to be hoped there are none) it is urgently requested that the National Recorder be advised of them. This will greatly facilitate the compilation of the 1913 issue of the Address Book.

This opportunity is taken to offer grateful and sincere thanks to the various Brothers who have given assistance in going over copy and supplying useful information, and especially to Brother Maurice E. Fox who arranged all the data, prepared a large part of the copy for the printer and without whose painstaking assistance it would have been quite impossible to have completed the book at this time.

THE NATIONAL RECORDER.

East Orange, N. J., Feb. 25, 1911.
